SUMMARY

Mobile app developer with experience in native (Android + Java) and cross-platform (React Native) development. Published multiple Play Store apps with complete lifecycle handling — from UI design to Firebase integration. Skilled in building real-time features and writing clean, efficient code.

PROJECTS

Trendy Ai Fashion Hub

Jan 2025 - Present

- Utilized React Native for cross-platform mobile app development ensuring smooth UI/UX across Android and iOS.
- Used Firebase Auth & Firestore for secure user login, subscription, and data management.
- Implemented daily weather API for outfit suggestions and ML Kit for beauty score analysis.
- Built event scheduler to send notifications 5 hours before event end.

Play & learn Kid: Edition

Nov 2024 - Apr 2025

- Built a kid-friendly app using React Native with smooth navigation, FlatList, and bottom tab bar UI.
- Used Firebase Auth and Firestore to manage user login and store monthly subscription data.
- Integrated Google Billing for handling and validating in-app subscriptions.
- Play Store : [Play & learn Kid: Edition](#)

Global Lingo

Aug 2024 - Sept 2024

- Developed a cross-platform language translator app using React Native with support for text and image-based translation.
- Integrated Google ML Kit for real-time text translation and image text detection via device camera.
- Enabled canvas-based handwriting input and translation with a user-friendly, intuitive UI.
- Play Store : [Global Lingo](#)

EDUCATION

Bachelor of computer Science

Aug 2021 - June 2024

KCES'S Moolji Jaitha College, Jalgaon

- 63 % CGPA : 7.36
-
